SUBCHAPTER III—ADDITIONAL AUTHORITIES AND REQUIREMENTS

SUBCHAPTER REFERRED TO IN OTHER SECTIONS

This subchapter is referred to in title 42 section 7511a.

PART A—EMERGENCY AUTHORITY

§ 3361. Declaration of emergency

(a) Presidential declaration

The President may declare a natural gas supply emergency (or extend a previously declared emergency) if he finds that—

(1) a severe natural gas shortage, endangering the supply of natural gas for high-priority uses, exists or is imminent in the United States or in any region thereof; and

(2) the exercise of authorities under section 3362 or section 3363 of this title is reasonably necessary, having exhausted other alternatives to the maximum extent practicable, to assist in meeting natural gas requirements for such high-priority uses.

(b) Limitation

(1) Expiration

Any declaration of a natural gas supply emergency (or extension thereof) under subsection (a) of this section, shall terminate at the earlier of—

(A) the date on which the President finds that any shortage described in subsection (a) of this section does not exist or is not imminent; or

(B) 120 days after the date of such declaration of emergency (or extension thereof).

(2) Extensions

Nothing in this subsection shall prohibit the President from extending, under subsection (a) of this section, any emergency (or extension thereof), previously declared under subsection (a) of this section, upon the expiration of such declaration of emergency (or extension thereof) under paragraph (1)(B).

(Pub. L. 95-621, title III, §301, Nov. 9, 1978, 92 Stat. 3381.)

DELEGATION OF FUNCTIONS

Functions of President under this subchapter, except for authority to declare, extend, and terminate a national gas supply emergency pursuant to this section, delegated to Secretary of Energy, see section 1-101 of Ex. Ord. No. 12235, Sept. 3, 1980, 45 F.R. 58803, set out as a note under section 3364 of this title.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 3362, 3363, 3364, 3412, 3416 of this title.

§ 3362. Emergency purchase authority

(a) Presidential authorization

During any natural gas supply emergency declared under section 3361 of this title, the President may, by rule or order, authorize any interstate pipeline or local distribution company served by any interstate pipeline to contract, upon such terms and conditions as the President determines to be appropriate (including provisions respecting fair and equitable prices), for the purchase of emergency supplies of natural gas—

(1) from any producer of natural gas (other than a producer who is affiliated with the purchaser, as determined by the President) if—

(A) such natural gas is not produced from the Outer Continental Shelf; and

(B) the sale or transportation of such natural gas was not pursuant to a certificate issued under the Natural Gas Act [15 U.S.C. 717 et seq.] immediately before the date on which such contract was entered into; or

(2) from any intrastate pipeline, local distribution company, or other person (other than an interstate pipeline or a producer of natural gas).

(b) Contract duration

The duration of any contract authorized under subsection (a) of this section may not exceed 4 months. The preceding sentence shall not prohibit the President from authorizing under subsection (a) of this section a renewal of any contract, previously authorized under such subsection, following the expiration of such contract.

(c) Related transportation and facilities

The President may, by order, require any pipeline to transport natural gas, and to construct and operate such facilities for the transpor-

tation of natural gas, as he determines necessary to carry out any contract authorized under subsection (a) of this section. The costs of any construction or transportation ordered under this subsection shall be paid by the purchaser of natural gas under the contract with respect to which such order is issued. No order to transport natural gas under this subsection shall require any pipeline to transport natural gas in excess of such pipeline's available capacity.

(d) Maintenance of adequate records

The Commission shall require any interstate pipeline or local distribution company contracting under the authority of this section for natural gas to maintain and make available full and adequate records concerning transactions under this section, including records of the volumes of natural gas purchased under the authority of this section and the rates and charges for purchase and receipt of such natural gas.

(e) Special limitation

No sale under any emergency purchase contract under this section for emergency supplies of natural gas for sale and delivery from any intrastate pipeline which is operating under court supervision as of January 1, 1977, may take effect unless the court approves.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 3361, 3363, 3364, 3373, 3374, 3412, 3414, 3416, 3417, 3431, 3432 of this title.

§ 3363. Emergency allocation authority

(a) In general

In order to assist in meeting natural gas requirements for high-priority uses of natural gas during any natural gas supply emergency declared under section 3361 of this title, the President may, by order, allocate supplies of natural gas under subsections (b), (c), and (d) of this section to—

(1) any interstate pipeline;

(2) any local distribution company—

(A) which is served by any interstate pipeline;

(B) which is providing natural gas only for high-priority uses; and

(C) which is in need of deliveries of natural gas to assist in meeting natural gas requirements for high-priority uses of natural gas; and

(3) any person for meeting requirements of high-priority uses of natural gas.

(b) Allocation of certain boiler fuel gas

(1) Required finding

The President shall not allocate supplies of natural gas under this subsection unless he finds that—

(A) to the maximum extent practicable, emergency purchase authority under section 3362 of this title has been utilized to assist in meeting natural gas requirements for high-priority uses of natural gas;

(B) emergency purchases of natural gas supplies under section 3362 of this title are not likely to satisfy the natural gas requirements for such high-priority uses;

(C) the exercise of authority under this subsection is reasonably necessary to assist in meeting natural gas requirements for such high-priority uses; and

(D) any interstate pipeline or local distribution company receiving such natural gas has ordered the termination of all deliveries of natural gas for other than high-priority uses and attempted to to¹ the maximum extent practicable to terminate such deliveries.

(2) Allocation authority

Subject to paragraph (1), in order to assist in meeting natural gas requirements for high-priority uses of natural gas, the President may, by order, allocate supplies of natural gas the use of which has been prohibited by the President pursuant to authority under section 717z of this title (relating to the use of natural gas as a boiler fuel during any natural gas supply emergency).

(c) Allocation of general pipeline supply

(1) Required findings

The President shall not allocate supplies of natural gas under this subsection unless he finds that—

(A) to the maximum extent practicable, allocation of supplies of natural gas under subsection (b) of this section has been utilized to assist in meeting natural gas requirements for high-priority uses of natural gas;

(B) the exercise of such authority is not likely to satisfy the natural gas requirements for such high-priority uses;

(C) the exercise of authority under this subsection is reasonably necessary to assist in meeting natural gas requirements for such high-priority uses;

(D) any interstate pipeline or local distribution company receiving such natural gas has ordered the termination of all deliveries of natural gas for other than high-priority uses and attempted to the maximum extent practicable to terminate such deliveries;

(E) such allocation will not create, for the interstate pipeline delivering certificated natural gas, a supply shortage which will cause such pipeline to be unable to meet the natural gas requirements for high-priority uses of natural gas served, directly or indirectly, by such pipeline; and

(F) such allocation will not result in a disproportionate share of deliveries and resulting curtailments of natural gas being experienced by such interstate pipeline when compared to deliveries and resulting curtailments which are experienced as a result of

orders issued under this subsection applicable to other interstate pipelines (as determined by the President).

(2) Required notification from State

(A)² Notification

The President shall not allocate supplies of natural gas under this subsection unless he is notified by the Governor of any State that—

(i) a shortage of natural gas supplies available to such State exists or is imminent;

(ii) such shortage or imminent shortage endangers the supply of natural gas for high-priority uses in such State; and

(iii) the exercise of authority under State law is inadequate to protect high-priority uses of natural gas in such State from an interruption in natural gas supplies.

(3) Basis of finding

To the maximum extent practicable, the Governor shall submit, together with any notification under subparagraph (A), information upon which he has based his finding under such subparagraph, including—

(i) volumes of natural gas required to meet the natural gas requirements for high-priority uses of natural gas in such State;

(ii) information received from persons in the business of producing, selling, transporting, or delivering natural gas in such State as to the volumes of natural gas supplies available to such State;

(iii) information on the authority under State law which will be exercised to protect high-priority uses; and

(iv) such other information which the President requests or which the Governor determines appropriate to apprise the President of emergency deliveries and transportation of interstate natural gas needed by such State.

(4) Allocation authority

Subject to paragraphs (1), (2), and (5), in order to assist in meeting natural gas requirements for high-priority uses of natural gas, the President may, by order, allocate supplies of certificated natural gas from any interstate pipeline.

(5) Consideration of alternative fuel availability

In issuing any order under this subsection the President shall consider the relative availability of alternative fuel to natural gas users supplied by the interstate pipeline ordered to make deliveries pursuant to this subsection.

(d) Allocation of user-owned gas

(1) Required finding

The President shall not allocate supplies of natural gas under this subsection unless he finds that—

(A) to the maximum extent practicable, allocation of supplies of natural gas under subsection (c) of this section has been utilized

¹ So in original.

² So in original. Par. (2) enacted without a subpar. (B).

to assist in meeting natural gas requirements for high-priority uses of natural gas;

(B) the exercise of such authority is not likely to satisfy the natural gas requirements for such high-priority uses;

(C) the exercise of authority under this subsection is reasonably necessary to assist in meeting natural gas requirements for such high-priority uses;

(D) any interstate pipeline or local distribution company receiving such natural gas has ordered the termination of all deliveries of natural gas for other than high-priority uses and attempted to the maximum extent practicable to terminate such deliveries; and

(E) such allocation will not create, for the person who owns and would otherwise use such natural gas, a supply shortage which will cause such person to be unable to satisfy such person's natural gas requirements for high-priority uses.

(2) Allocation authority

Subject to paragraphs (1) and (3), in order to assist in meeting natural gas requirements for high-priority uses of natural gas, the President may, by order, allocate supplies of natural gas which would be certificated natural gas but for the second sentence of section 3301(19) of this title.

(3) Consideration of economic feasibility of alternative fuels

In issuing any order under this subsection, the President shall consider the economic feasibility of alternative fuels available to the user which owned the natural gas subject to an order under this subsection.

(e) Limitation

No order may be issued under this section unless the President determines that such order will not require transportation of natural gas by any pipeline in excess of its available transportation capacity.

(f) Industry assistance

The President may request that representatives of pipelines, local distribution companies, and other persons meet and provide assistance to the President in carrying out his authority under this section.

(g) Compensation

(1) In general

If the parties to any order issued under subsection (b), (c), (d), or (h) of this section fail to agree upon the terms of compensation for natural gas deliveries or transportation required pursuant to such order, the President, after a hearing held either before or after such order takes effect, shall, by supplemental order, prescribe the amount of compensation to be paid for such deliveries or transportation and for any other expenses incurred in delivering or transporting natural gas.

(2) Calculation of compensation for certain boiler fuel natural gas

For purposes of any supplemental order under paragraph (1) with respect to emergency deliveries pursuant to subsection (b) of this

section, the President shall calculate the amount of compensation—

(A) for supplies of natural gas based upon the amount required to make whole the user subject to the prohibition order, but in no event may such compensation exceed just compensation prescribed in section 717z of this title; and

(B) for transportation, storage, delivery, and other services, based upon reasonable costs, as determined by the President.

(3) Compensation for other natural gas allocated

For the purpose of any supplemental order under paragraph (1), if the party making emergency deliveries pursuant to subsection (c) or (d) of this section—

(A) indicates a preference for compensation in kind, the President shall direct that compensation in kind be provided as expeditiously as practicable;

(B) indicates a preference for compensation, or the President determines that, notwithstanding paragraph (A) of this subsection, any portion thereof cannot practicably be compensated in kind, the President shall calculate the amount of compensation—

(i) for supplies of natural gas, based upon the amount required to make the pipeline and its local distribution companies whole, in the case of any order under subsection (c) of this section, or to make the user from whom natural gas is allocated whole, in the case of any order under subsection (d) of this section including any amount actually paid by such pipeline and its local distribution companies or such user for volumes of natural gas or higher cost synthetic gas acquired to replace natural gas subject to an order under subsection (c) or (d) of this section; and

(ii) for transportation, storage, delivery, and other services, based upon reasonable costs, as determined by the President. Compensation received by an interstate pipeline under this subsection shall be credited to the account of any local distribution company served by that pipeline to the extent ordered by the President to make such local distribution company whole.

(h) Related transportation and facilities

The President may, by order, require any pipeline to transport natural gas, and to construct and operate such facilities for the transportation of natural gas, as he determines necessary to carry out any order under subsection (b), (c), or (d) of this section. Compensation for the costs of any construction or transportation ordered under this subsection shall be determined under subsection (g) of this section and shall be paid by the person to whom supplies of natural gas are ordered allocated under this section.

(i) Monitoring

In order to effect the purposes of this part, the President shall monitor the operation of any order made pursuant to this section to assure

that natural gas delivered pursuant to this section is applied to high-priority uses only.

(j) Commission study

Not later than June 1, 1979, the Commission shall prepare and submit to the Congress a report regarding whether authority to allocate natural gas, which is not otherwise subject to allocation under this part, is likely to be necessary to meet high-priority uses.

(k) “High-priority use” defined

For purposes of this section, the term “high-priority use” means any—

- (1) use of natural gas in a residence;
- (2) use of natural gas in a commercial establishment in amounts less than 50 Mcf on a peak day; or
- (3) any use of natural gas the curtailment of which the President determines would endanger life, health, or maintenance of physical property.

(Pub. L. 95-621, title III, § 303, Nov. 9, 1978, 92 Stat. 3383.)

In issuing any order under section 3362 or 3363 of this title, the President shall require that the prices and volumes of natural gas delivered, transported, or contracted for pursuant to such order shall be reported to him on a weekly basis. Such reports shall be made available to the Congress.

(c) Presidential reports to Congress

The President shall report to the Congress, not later than 90 days following the termination

under section 3361(b) of this title of any declaration of a natural gas supply emergency (or extension thereof) under section 3361(a) of this title, respecting the exercise of authority under section 3361, 3362, 3363 of this title, or this section.

(d) Delegation of authorities

The President may delegate all or any portion of the authority granted to him under section 3361, 3362, 3363 of this title, or this section to such Federal officers or agencies as he determines appropriate, and may authorize such redelegation as may be appropriate. Except with respect to section 552 of title 5, any Federal officer or agency to which authority is delegated or redelegated under this subsection shall be subject only to such procedural requirements respecting the exercise of such authority as the President would be subject to if such authority were not so delegated.

(B) such action was not taken for the purpose of injuring competition; and

(C) any such meeting complied with the requirements of paragraph (2).

Persons interposing the defense provided by this subsection shall have the burden of proof, except that the burden shall be on the person against whom the defense is asserted with respect to whether the actions were taken for the purpose of injuring competition.

(g) Preemption

Any order issued pursuant to this subchapter shall preempt any provision of any program for the allocation, emergency delivery, transportation, or purchase of natural gas established by any State or local government if such program is in conflict with any such order.

(B) Rates and charges

(i) Maximum fair and equitable price

The rates and charges of any intrastate pipeline with respect to any transportation authorized under subparagraph (A), including any amount computed in accordance with the rule prescribed under clause (ii), shall be fair and equitable and may not exceed an amount which is reasonably comparable to the rates and charges which interstate pipelines would be permitted to charge for providing similar transportation service.

(ii) Commission rule

The Commission shall, by rule, establish the method for calculating an amount necessary to—

(I) reasonably compensate any intrastate pipeline for expenses incurred by the pipeline and associated with the providing of any gathering, treatment, processing, transportation, delivery, or similar service provided by such pipeline in connection with any transportation of natural gas authorized under subparagraph (A); and

(II) provide an opportunity for such pipeline to earn a reasonable profit on such services.

(b) Commission approval of sales

(1) In general

The Commission may, by rule or order, authorize any intrastate pipeline to sell natural gas to—

- (A) any interstate pipeline; and
- (B) any local distribution company served by any interstate pipeline.

(2) Rates and charges

(A) Maximum fair and equitable price

The rates and charges of any intrastate pipeline with respect to any sale of natural gas authorized under paragraph (1) shall be fair and equitable and may not exceed the sum of—

(ii) provide an opportunity for such pipeline to earn a reasonable profit on such services.

(C) Adjustment**(i) Application**

This subparagraph shall apply in any case in which, in order to deliver any volume of natural gas pursuant to any sale authorized under paragraph (1), any intrastate pipeline acquires quantities of natural gas under any existing contract, if—

(I) such intrastate pipeline acquires any volume of natural gas under such contract in excess of that which such pipeline would otherwise have acquired; and

(II) the price paid for such additional volume of natural gas acquired under such contract is greater than such pipeline's weighted average acquisition cost of natural gas, computed without regard to the acquisition of such additional volume of natural gas.

(ii) Commission adjustment

In any case to which this subparagraph applies, the Commission shall permit an adjustment to the maximum fair and equitable price provided under subparagraph (A) to increase the revenue to the intrastate pipeline under such sale by an amount determined by the Commission to be adequate to offset the additional cost incurred by such pipeline due to any increase in such pipeline's weighted average acquisition cost of natural gas.

(v) such other information as the Commission may, by rule, require.

(B) Verification of compliance

Any application for authorization of any sale under paragraph (1) shall be accompanied by a statement by the intrastate pipeline involved verifying by oath or affirmation that such sale, if authorized, would comply with all requirements applicable to such sale under this subsection and all terms and conditions established, by rule or order, by the Commission and applicable to such sale.

(6) Termination of sales**(A) Hearing**

Upon complaint of any interested person, or upon the Commission's own motion, the Commission shall, after affording an opportunity for oral presentation of views and arguments, terminate any sale authorized under paragraph (1) if the Commission determines—

(i) such termination is required to enable the intrastate pipeline involved to provide adequate service to the customers of such pipeline at the time of such sale;

(ii) such sale involves the sale of natural gas acquired by the intrastate pipeline involved solely or primarily for the purpose of resale of such natural gas pursuant to a sale authorized under paragraph (1);

(iii) such sale violates any requirement of this subsection or any term or condition established, by rule or order, by the Commission and applicable to such sale; or

(iv) such sale circumvents or violates any provision of this chapter.

(B) Suspension pending hearing

Prior to any hearing or determination required under subparagraph (A), upon complaint of any interested person or upon the Commission's own motion, the Commission may suspend any sale authorized under paragraph (1) if the Commission finds that it is likely that the determinations described in subparagraph (A) will be made following the hearing required under subparagraph (A).

(C) Determination

The determination of whether any interruption of any sale authorized under paragraph (1) is required under subparagraph (A)(i) shall be made by the Commission without regard to the character of the use of

natural gas by any customer of the intrastate pipeline involved.

(D) State intervention

Any interested State may intervene as a matter of right in any proceeding before the Commission relating to any determination under this section.

(7) Disapproval of application

The Commission shall disapprove any application for authorization of any sale under paragraph (1) if the Commission determines—

(A) such sale would impair the ability of the intrastate pipeline involved to provide adequate service to its customers at the time of such sale (without regard to the character of the use of natural gas by such customer);

(B) such sale would involve the sale of natural gas acquired by the intrastate pipeline involved solely or primarily for the purpose of resale of such natural gas pursuant to a sale authorized under paragraph (1);

(C) such sale would violate any requirement of this subsection or any term or condition established, by rule or order, by the Commission and applicable to such sale; or

(D) such sale would circumvent or violate any provision of this chapter.

(c) Terms and conditions

Any authorization granted under this section shall be under such terms and conditions as the Commission may prescribe.

**SUBCHAPTER IV—NATURAL GAS
CURTAILMENT POLICIES**

SUBCHAPTER REFERRED TO IN OTHER SECTIONS

This subchapter is referred to in title 42 section 8235e.

§ 3391. Natural gas for essential agricultural uses

(a) General rule

Not later than 120 days after November 9, 1978, the Secretary of Energy shall prescribe and make effective a rule, which may be amended from time to time, which provides that, notwithstanding any other provision of law (other than subsection (b) of this section) and to the maximum extent practicable, no curtailment plan of an interstate pipeline may provide for curtailment of deliveries of natural gas for any essential agricultural use, unless such curtailment—

(1) does not reduce the quantity of natural gas delivered for such use below the use requirement specified in subsection (c) of this section; or

(2) is necessary in order to meet the requirements of high-priority users.

(b) Curtailment priority not applicable if alternative fuel available

If the Commission, in consultation with the Secretary of Agriculture, determines, by rule or order, that use of a fuel (other than natural gas) is economically practicable and that the fuel is reasonably available as an alternative for any agricultural use of natural gas, the provisions of subsection (a) of this section shall not apply with respect to any curtailment of deliveries for such use.

(c) Determination of essential agricultural use requirements

The Secretary of Agriculture shall certify to the Secretary of Energy and the Commission the

natural gas requirements (expressed either as volumes or percentages of use) of persons (or classes thereof) for essential agricultural uses in order to meet the requirements of full food and fiber production.

(d) Authority of Secretary of Agriculture to intervene

The Secretary of Agriculture may intervene as a matter of right in any proceeding before the Commission which is conducted in connection with implementing the requirements of the rule prescribed under subsection (a) of this section.

(e) Limitation

The Secretary of Agriculture may not exercise any authority under this section for the purpose of restricting the production of any crop.

(f) Definitions

For purposes of this section—

(1) Essential agricultural use

The term “essential agricultural use”, when used with respect to natural gas, means any use of natural gas—

(A) for agricultural production, natural fiber production, natural fiber processing, food processing, food quality maintenance, irrigation pumping, crop drying, or

(B) as a process fuel or feedstock in the production of fertilizer, agricultural chemicals, animal feed, or food,

which the Secretary of Agriculture determines is necessary for full food and fiber production.

(2) High-priority user

The term “high-priority user” means any person who—

(A) uses natural gas in a residence;

(B) uses natural gas in a commercial establishment in amounts of less than 50 Mcf on a peak day;

(C) uses natural gas in any school, hospital, or similar institution; or

(D) uses natural gas in any other use the curtailment of which the Secretary of Energy determines would endanger life, health, or maintenance of physical property.

For the purposes of section 3391 of this title, the term “essential agricultural use” shall—

(1) include use of natural gas in sugar refining for production of alcohol;

(2) include use of natural gas for agricultural production on set-aside acreage or acreage diverted from the production of a commodity (as provided under the Agricultural Act of 1949 [7 U.S.C. 1421 et seq.]) to be devoted to the production of any commodity for conversion into alcohol or hydrocarbons for use as motor fuel or other fuels; and

(3) for the 5-year period beginning on June 30, 1980, include use of natural gas in the distillation of fuel-grade alcohol from food grains

or other biomass by facilities in existence on June 30, 1980, which do not have the installed capability to burn coal lawfully.

(a) General rule

The Secretary of Energy shall prescribe and make effective a rule which provides that, notwithstanding any other provision of law (other than subsection (b) of this section) and to the maximum extent practicable, no interstate pipeline may curtail deliveries of natural gas for any essential industrial process or feedstock use, unless such curtailment—

(1) does not reduce the quantity of natural gas delivered for such use below the use requirement specified in subsection (c) of this section;

(2) is necessary in order to meet the requirements of high-priority users; or

(3) is necessary in order to meet the requirements for essential agricultural uses of natural gas for which curtailment priority is established under section 3391 of this title.

(b) Curtailment priority applicable only if alternative fuel not available

The provisions of subsection (a) of this section shall apply with respect to any curtailment of deliveries for any essential industrial process or feedstock use only if the Commission determines that use of a fuel (other than natural gas) is not economically practicable and that no fuel is reasonably available as an alternative for such use.

(c) Determination of essential industrial use requirements

The Secretary of Energy shall determine and certify to the Commission the natural gas requirements (expressed either as volumes or percentages of use) of persons (or classes thereof) for essential industrial process and feedstock uses (other than those referred to in section 3391(f)(1)(B) of this title).

¹ So in original. Probably should be “as”.

§ 3416. Judicial review**(a) Orders****(1) In general**

The provisions of this subsection shall apply to judicial review of any order, within the meaning of section 551(6) of title 5 (other than an order assessing a civil penalty under section 3414(b)(4) of this title or any order under section 3362 of this title or any order under section 3363 of this title), issued under this chapter and to any final agency action under this chapter required to be made on the record after an opportunity for an agency hearing.

(2) Rehearing

Any person aggrieved by any order issued by the Commission in a proceeding under this chapter to which such person is a party may apply for a rehearing within 30 days after the issuance of such order. Any application for rehearing shall set forth the specific ground upon which such application is based. Upon the filing of such application, the Commission may grant or deny the requested rehearing or modify the original order without further hearing. Unless the Commission acts upon such application for rehearing within 30 days after it is filed, such application shall be deemed to have been denied. No person may bring an action under this section to obtain judicial review of any order of the Commission unless—

(A) such person shall have made application to the Commission for rehearing under this subsection; and

(B) the Commission shall have finally acted with respect to such application.

For purposes of this section, if the Commission fails to act within 30 days after the filing of such application, such failure to act shall be deemed final agency action with respect to such application.

(3) Authority to modify orders

At any time before the filing of the record of a proceeding in a United States Court of Appeals, pursuant to paragraph (4), the Commission may, after providing notice it determines reasonable and proper, modify or set aside, in whole or in part, any order issued under the provisions of this chapter.

A copy of such petition shall forthwith be transmitted by the clerk of such court to any member of

the Commission and thereupon the Commission shall file with the court the record upon which the order complained of was entered, as provided in section 2112 of title 28. Upon the filing of such petition such court shall have jurisdiction, which upon the filing of the record with it shall be exclusive, to affirm, modify, or set aside such order in whole or in part. No objection to such order of the Commission shall be considered by the court if such objection was not urged before the Commission in the application for rehearing unless there was reasonable ground for the failure to do so. The finding of the Commission as to the facts, if supported by substantial evidence, shall be conclusive. If any party shall apply to the court for leave to adduce additional evidence, and shall show to the satisfaction of the court that such additional evidence is material and that there were reasonable grounds for failure to adduce such evidence in the proceedings before the Commission, the court may order such additional evidence to be taken before the Commission and to be adduced upon the hearing in such manner and upon such terms and conditions as the court deems proper. The Commission may modify its findings as to the facts by reason of the additional evidence so taken, and shall file with the court such modified or new findings, which if supported by substantial evidence, shall be conclusive. The Commission shall also file with the court its recommendation, if any, for the modification or setting aside of the original order. The judgment and decree of the court, affirming, modifying, or setting aside, in whole or in part, any such order of the Commission, shall be final subject to review by the Supreme Court of the United States upon certiorari or certification as provided in section 1254 of title 28.
